Educational Continuing Education Support

Emergent Needs Small Award

The WakeMed Foundation has made funding available to the various WakeMed Enterprises for continuing education and emergent and urgent project/services or equipment needs that have a direct tie to WakeMed's aspirational goals. The funds are being administered by the Enterprise Leaders through a Request for Funding process. Clear deliverables and metrics that demonstrate impact to patient care are required for consideration of support.

Since these are donor dollars to the Foundation which have then been designated to the hospital, support cannot go to projects that should clearly fall within an operational expense. Educational funding is an additional resource to the existing Continuing Education dollars funded by the health system.

Funding priorities in FY23-24 fall within areas of supporting skilled caregivers, fostering innovative programs, and building healing environments that benefit our patients, their families.

Applications are accepted throughout the year and the committee meets to review every other month. The process continues until all funds are expended within the fiscal year. If you have any questions, please feel free to contact your enterprise leader, or you can reach out to Deb Laughery, interim, executive director for the WakeMed Foundation at dlaughery@wakemed.org

Project Title: _____

WakeMed requestor: _____

WakeMed Leader (Manager or Above) approving the Request: _____

Brief High-Level Description (200-300 words) of request: Make sure to include impact on patient care in description of need.

Anticipated Funding Amount: _____

Departments Involved: _____

Timeline for Execution: _____
