

Pyxis Training for Nursing Students at WakeMed

Browsers supported by Litmos include the **latest versions of: Apple Safari; Google Chrome; Mozilla Firefox; and Microsoft Edge.**

1. Go to: <https://mybdlearning.litmos.com> and register. If you need help, e-mail LearningCompass@bd.com or complete the "Contact Us" form as directed on the login page.

1. After you register this screen will pop up.

Welcome to My BD Learning!

Use the **Content Library** to search for learning by topics (products) and tags (learner roles).

View your Assignments on the **Home** page.

If you have signed in using the BD Single Sign-on system, you will have a new user interface next time you log in. For best results, log out now, and then log back in on the BD Single Sign-on page again.

Note the directions to log out and log back in.

Watch this video for a [brief tour of the new Content Library](#). (Opens in a new tab)

If you recently completed training in Learning Compass, the transcripts (achievements) will be migrating to My BD Learning in the next day or so.

Always show this message on the Home page

- You should have an extensive list of courses in the catalog. If the catalog is empty, please e-mail LearningCompass@bd.com. If the list of courses is present, click “Nurse/Clinician”.

- Type “Pyxis” in the topic search field and select “Pyxis ES System v1.6”

- Click on the course: Nurse/Clinician – Pyxis MedStation ES v1.6 Essentials of Profile Mode

- Complete the course.
- Click on “Achievements” to download and save the Certificate of Completion. You will need to submit it along with the Pyxis Access Request Form each term that you are at WakeMed.
