

PET/CT Pre-Scheduling Form

To schedule an appointment, call 919-350-4210
Fax completed form to 919-350-8959

Appointment Date and Time: _____

PATIENT INFORMATION

Patient Name: _____

Date of Birth: _____

Patient's Phone #: _____

Male Female

Primary Insurance/Authorization #: _____

Patient's Weight: _____ Height: _____

REFERRING INFORMATION

Referring Physician: _____

Diabetes: Yes No
Medications: Oral Insulin _____

Physician Contact Information: _____

Pager Phone

Diagnosis/ICD-10 Code: _____

Physician Signature: _____

Date: _____ Time: _____

Results Preferred: Fax Report to #: _____

Call Results to #: _____

History: _____

EXAM INFORMATION – CHOOSE RADIOTRACER AND BODY AREA

PET/CT is routinely used for tumor imaging of the body. This exam includes a non-contrast CT scan that is for attenuation correction only. (Please note oral contrast may be administered at the discretion of the radiologist.)

- F-18 FDG – for most cancers and neurologic diseases
- F-18 PSMA positive lesions in prostate cancer patients (78815)
 - Posluma (preferred) A9608 or Pylarify (alternate) (A9595)
- Cu64 Dotatate (Detectnet) – for neuroendocrine tumor (A9592 + 78815)
- F-18 Fluoroestradiol (Cerianna) – evaluation of ER+ lesions in recurrent breast cancer (A9591 + 78815)
- F-18 Florbetapir (Amyvid) – for evaluation of beta amyloid plaque/Alzheimer's dementia (A9586 + 78814)
- 78815 – base of skull to thighs
- 78816 – head to toes for melanoma/myeloma
- 78608 – brain, dementia/seizure

INDICATIONS for PET/CT Tumor Scan:

- Initial Treatment Strategy (diagnosis/initial staging)
- Subsequent Treatment Strategy (restaging/monitoring)
- Other (please identify): _____

Additional patient information, clinical history and symptoms:

- Recent surgery to area of interest Yes No If yes, date of surgery: _____
- Radiation Therapy Yes No If yes, most recent date of service: _____
- Chemo Therapy Yes No If yes, most recent date of service: _____

Recent relevant imaging: CT MRI NM PET Other: _____

CHECKLIST FOR REFERRING PHYSICIAN'S OFFICE

- Completed pre-scheduling form (this form)
- Copies of all insurance cards
- Copies of all CT, MRI and Nuclear Medicine reports
- Relevant office notes and path reports

IMPORTANT: AT LEAST 48 HOURS NOTICE IS REQUIRED TO CANCEL OR RESCHEDULE THE EXAM.

PATIENT PREPARATION INSTRUCTIONS – RADIOTRACER SPECIFIC

F18 FDG for Routine Oncology/Metabolic Evaluation

1. Nothing by mouth (NPO) for 4 hours prior to your appointment time
2. The patient may drink water and take any necessary medication with water
3. Eat low carbohydrate/no sugar diet beginning 24 hours prior to exam (avoid starches, pasta, rice, beans, fruits, candy, gum and caffeine).
4. No exercise or strenuous physical activity 24 hours prior to the exam
5. Although scan time is typically 15-30 minutes, expect to spend approximately 1.5 hours at our facility for your PET CT scan

F-18 PSMA (Posluma/Pylarify) for positive lesions in prostate cancer patients with suspected metastasis and candidates for initial definite therapy and/or suspected recurrence based on elevated PSA levels.

1. No prep required for this exam.

Cu64 Dotatate (Detectnet) Radiotracer for Neuroendocrine Tumor

1. Drink plenty of water the day before and day of the exam.
2. No fasting required.
3. If you are on long-acting somatostatin treatment, the exam must be scheduled just prior to your next dose. If you are on short-acting somatostatin treatment, you should discontinue for 48 hours prior to your exam.

F18 Fluoroestradiol (Cerianna) Radiotracer for Evaluation of ER+ Lesions in Recurrent or Metastatic Breast Cancer

1. No prep required for this exam.

F-18 Florbetapir (Amyvid) Radiotracer for Evaluation of Beta Amyloid Plaque/Alzheimer's Dementia

1. No prep required for this exam.

REGISTRATION

Please plan to arrive 15 minutes before your appointment time so that you can complete the registration process. Remember to bring all outside films with you (MRI, CT) if not done at WakeMed or Raleigh Radiology.

Registration can be done at the kiosk station within the seating area or you can see the Imaging patient registration receptionist. You will be asked to show a photo ID and your current insurance card.

LOCATION

210 PET Imaging is located at the Medical Park of Cary adjacent to the WakeMed Cary Hospital campus.
The address is: 210 Ashville Avenue, Suite 120, Cary, NC 27518

The PET Imaging suite is located on the first floor. Free parking is available in the parking deck beside the building or ground level parking spaces in front of the building.
