we couldn’t do what we do without you

Congratulations to all our 2011 Service Award recipients. You have reached a milestone.

This year, WakeMed has reached a milestone as well and will celebrate its 50th anniversary. A great many of you were here to witness the earliest years of our history. This fact speaks volumes about the strength of the WakeMed system and the character of its staff: dedicated, reliable, committed. Our heartfelt thanks to each and every one of you.
This February, during Heart Month, the experts at WakeMed Heart & Vascular are taking the show on the road! We’re making stops all around Wake County to teach the basics of CPR, along with the warning signs and symptoms of heart attack.

The program will include a presentation on the warning signs and symptoms of heart attack, followed by a 20-minute CPR Anytime presentation. Participants will receive a free CPR Anytime kit per household.

For more information, call 844-536-0509 or visit wakehealth.org/heart-health.
